7. You understand, acknowledge and agree that MODERATOR results may be based on simulated or hypothetical performance, and such results have certain inherent limitations. Unlike the results shown in an actual performance record, such results do not represent actual trading. Your actual results may differ from results reported for many reasons, including, without limitation: performance results do not reflect actual trading commissions that You may incur;

performance results do not account for the impact, if any, of certain market factors, such as lack of liquidity, that may affect Your results; the investments chosen may be volatile, and server, delivery delays and other factors may cause the price You obtain to differ substantially from the price at the time of the alert; the prices of investments at the point in time You begin subscribing may be higher than such prices at the time such investments were chosen; You may not have the capital to trade as frequently as the moderator; and the size and timing of your purchase or sale of a stock may affect the price of the stock, among other reasons.

8. You understand, acknowledge and agree that, For informational and teaching purposes only, trades may be called out, posted, or alerted, but not executed. You understand, acknowledge and agree that moderators may sometimes purchase or sell securities sooner or later than called out, posted or alerted. Moderators are also not required to disclose all trades, and their positions may be inconsistent with trades. Also, because some trades may not actually have been executed, results may have under-or-over-compensated for the impact, if any, of certain market factors, such as liquidity. Simulated or hypothetical trading

programs in general are also subject to the fact that they are designed with the benefit of hindsight. You understand, acknowledge and agree that the Site contains simulated or hypothetical trading programs. No representation is being made that any account will or is likely to achieve profits or losses similar to these being shown.

9. D. Investments and Results

1. The purchase and sale of securities, futures, or commodities involve a high degree of risk

and is speculative in nature. The purchase and sale of securities should only be conducted by persons who understand and accept the risks involved therewith and who have independently reviewed and determined their acceptance and suitability of these risks and the financial and tax consequences thereof. Only persons who are able to bear the risk of substantial or complete loss of funds should engage in the purchase and sale of securities, futures or commodities.

2. American Dream Trading, LLC., and the content and information contained on the Site, and in other products and services of American Dream Trading, LLC., do not indicate or guaranty any predictable, general, specific or other results. The purchase and sale of securities, and any other investment activity, involves a high degree of risk, and a number of factors could materially and adversely affect the results and lead to a substantial or complete loss of an investment.
3. As more fully set forth herein, American Dream Trading, LLC., and its directors, officers, shareholders, employees, agents and affiliates, make no representation, warranty or guaranty as to the validity, adequacy, timeliness, accuracy, reliability or

completeness of any data, content or information. You should independently analyze, review and confirm any such data, content or information.

4. American Dream Trading, LLC. may express or utilize testimonials or descriptions of past performance, but such items are not indicative of future results or performance, or any representation, warranty or guaranty that any result will be obtained by you. Your results may differ materially from those expressed or utilized by American Dream Trading, LLC. due to a number of factors.
5. **COMMODITY FUTURES TRADING COMMISSION RULE 4.41:** Hypothetical performance results have many inherent limitations, some of which are described below. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown, in fact, there are frequently sharp differences between hypothetical performance results and the actual results subsequently achieved by any particular trading program. One of the limitations of hypothetical performance results is that they are generally prepared with the benefit of hindsight, in addition, hypothetical trading does not involve financial risk, and no hypothetical trading record can completely account for the impact

of financial risk in actual trading. For example, the ability to withstand losses or adhere to a particular trading program in spite of trading losses are material points which can also adversely affect actual trading results. There are numerous other factors related to the markets in general or to the implementation of any specific trading program which cannot be fully accounted for in the preparation of hypothetical performance results and all of which can adversely affect actual trading results.

E. Testimonials Disclaimer

1. Endorsements, testimonials or descriptions of past performance from other customers or members are based upon their individual experiences and results with the Site, and the products and services of American Dream Trading, LLC.. These results and performances are not typical, and you should not expect to achieve the same or similar results or performance, and your results and performance are likely to vary or differ materially. The endorsements, testimonials or descriptions of past performance are individual experiences, reflecting real life

experiences of customers or members, and are not representative of the results and performances of all customers and members.

2. Endorsements, testimonials or descriptions of past performance appearing on the Site were received pancekvia text, audio or video submission from customers or members. The endorsements, testimonials or descriptions of past performance (text, audio and/or video) are verbatim except for correction of grammatical or typing errors and editing for length. In other words, not the whole message received by the customer or member may be displayed, when it seemed lengthy or not all content seemed relevant for the general public. No endorsements, testimonials or descriptions of customers or members that appear on the Site involved payment or compensation therefor.
3. Ross Cameron's experience with trading is not typical, nor is the experience of individuals featured in testimonials. They are experienced traders. Becoming an experienced trader takes hard work, dedication and a significant amount of time.
4. We do not track the typical results of our current or past students. As a provider of educational courses, we do not have access

to the personal trading accounts or brokerage statements of our customers. Available research data suggests that most day traders are not profitable.

5. In a research paper published in 2014 titled “Do Day Traders Rationally Learn About Their Ability?”, professors from the University of California studied 3.7 billion trades from the Taiwan Stock Exchange between 1992-2006 and found that only 9.81% of day trading volume was generated by predictably profitable traders and that these predictably profitable traders constitute less than 3% of all day traders on an average day. *Citation 1
6. In a 2005 article published in the Journal of Applied Finance titled “The Profitability of Active Stock Traders” professors at the University of Oxford and the University College Dublin found that out of 1,146 brokerage accounts day trading the U.S. markets between March 8, 2000 and June 13, 2000, only 50% were profitable with an average net profit of \$16,619. *Citation 2
7. In a 2003 article published in the Financial Analysts Journal titled “The Profitability of

Day Traders”, professors at the University of Texas found that out of 334 brokerage accounts day trading the U.S. markets between February 1998 and October 1999, only 35% were profitable and only 14% generated profits in excess of than \$10,000.
*Citation 3

8. The range of results in these three studies exemplify the challenge of determining a definitive success rate for day traders. At a minimum, these studies indicate at least 50% of aspiring day traders will not be profitable. This reiterates that consistently making money trading stocks is not easy. Day Trading is a high risk activity and can result in the loss of your entire investment. Any trade or investment is at your own risk.
